Cash on hand...... \$20,561 28 ANNUAL REPORT OF COMMISSIONER PUBLIC WORKS of the city of New York, for the year 1870-71. Pear 1870-71.

Department of Public Worls.

Commissioner's Cepter, 237 Broadway.
New York. April 11, 1871.

Honorable A. Oakey Hall, Mayor of the City of New York.

Sin: A communication received from you on the 29th ultimo requests an annual report from this Depart-ment as to its "works" during the year which has this day transpired. In accordance with such request, and chapter 137, section 31, of the Laws of 1870, entitled "An Act to Reorganize the Local Government of the City of New York," I have the honor to submit the following:

The 8th article of the act above referred to, creating the Department of Public Works, merged the then Street Department and Creton Aqueduct Department into one body, and giving it cognizance and control

1st. The structures and property connected with the supply and distribution of Croton water.
2d. Of the collection of the revenues arising from the sale or use of the Croton water.

3d. Of opening, altering, regulating, grading, flag-ging, curbing, guttering, and lighting streets, roa is,

places, and avenues.

4th. Of the repairing and construction of public roads.

5th. Of the care of public buildings. 6th. Of the filling up of sunken lots.

th. Of the miling up of sunten loss.

Th. Of public sewers and drainage.

Sth. Of street vaults.

9th. Of paying, repaying, and repairing streets, and keeping the same clear.

10th, Of digging and constructing wells; and designated the street of the same clear.

noted that there should be eight Bureaux in the De-partment, and defining their respective spheres of duty, all subject to the general head or Commissioner of Public Works.

As Chief Officer, I transmit herewith the reports of the various Bureaux in connection with my own, and other important statements and detailed tabular exhibits, which will furnish a full account of the working

hibits, which will farnish a full account of the working and labor of the Department.

By reference to statement "A." It will be seen that the amount of balances placed to the credit of this Department by the late Street Department was two hundred and two thousand nine hundred and eight dollars and sixty-eight cents (\$500,500); and also by
the Croton Aqueduct Department, one thousand
seven hundred and eighty-one dollars and two cents
(\$1.781.02): and further, that by the appropriations of
the Legislature, chapter \$53 of the Laws of 1570, the sum
of two millions nine hundred and ninety thousand
eight hundred and eighty-eight dollars and afty cents

cents (\$3,138,140 80).

By the same statement it will also be observed that the expenditures of the Department on these appropriations were two million seven hundred and eigaty-six thousand nine hundred and thirty-nine dollars and

six thousand side hundred and thirty-nine dollars and seventy-four cents (\$7.76,589.74).

There was transferred to General Fund in the Finance Department the sum of four thousand three hundred and thirty-two dollars and fifty-six cents (\$4.38:56), which were balances long remaining on the books of the old departments, which could only so be transferred, and the objects for which the appropriations were originally made had been accomplished; hence the balances which are itemized in the statement, amount in the aggregate to the sum of three hundred and twenty-seven thousand one hundred and hundred and twenty-seven thousand one hundred and forty-five dollars and forty-five cents (\$137,145.45). The total amount of exceeditures on all Trust and Special Accounts is five million four hundred an 1 six-

ty-fine thousand three hundred and sixty four dollars and eighty-three cents (\$6,469,364.85).

Moneys drawn from "Frust Accounts" are, in the usual course of collection, relimbursed the city treesury by assessments upon the property benefited, and ury by assessments upon the property concited, and include such matters as opening, regulating, grading, curbing, gattering, and flagging streets, the laying down of the various classes of pavements, &c., besides which there are stock accounts from which money is drawn for specific purposes, such as the alterations of the Croton Aqueduct from Ninety-third to one Hundred and Thurteenth street, the lowering of water mains, the extension of the water works (high service) at Carmanayille, the laying of water pipes in that io-

serions accident occur to any one of these corporations, over for a brief period, their charters are not only most liberal, but in their acts and charges to consumers they are unbridled.

Over five hundred miles of gas mains are now siretched through our streats and avenues.

The report of the Waser Purveyor, who buscharge of the laying of water pipes and their repair, the setting and repair of five hydrauts, the keeping in order wells and pumps, the paving of all streets and avenues, and laying bridge stones and crosswalks, sets forth a full exhibit of the work of the year, which has been unprecedented.

the Legislature has been judiciously expended by only in putting and keeping in repair the roads for merly constructed and needing a more substantial and firmer roadsed, but in the construction of new and firmer roadsed, but in the construction of new and firmer roadsed, but in the construction of new and There will be found attached for information a tabular account of all contracts (except special, consisting of small contracts authorized by the Charter, and which are detailed in the Report of the Bureaus annexed executed by this Department from April II, 1970, to April II, 1871. This account contains the date of execution the title of the respective wors the amount of contract, and the name of the contractor.

The total number of paving contracts of all classes was sevenly-three (73), as an aggregate cost of one million eight hundred and forty-six thousand three hundred and sevenly-six dollars and sincer-five confections (25.56.376.35). The number of sever contracts was firey-six (50), at a total cost of four hundred and ninety-seven thousand eight hundred and nery-order (50) contracts were forting and eightly-five certain were entered into for regulating and grading at a cost of one million two hundred and since the contracts were fully contracts. The contracts were fully contracts for curb guiter, and flagging, at an expense of sixty-six hundred and seventy-four (174) contracts, amounting in the aggregate to three million six hundred and twenty-three chairs (50), passing a total of one hundred and seventy-four (174) contracts, amounting in the aggregate to three million six hundred and twenty-three chairs (80).

Also accompanying this report will be found a communication from the Superintendent of Legislations.

eight editars and seventy-three cents (\$1,623,623,626,226).

See accompanying this report will be found a communication from the Superintendent of Incumorances to the business of that office for the very and from which it will appear that 2.275 cases were reported, of which i,861 were removed by parties on the premises and 386 by the city.

The number of vault permits granted during the year was 211, and from which as derived a revoluce of fitty four thousand three hundred and diffy-two dollars and forty-one cents. (834, 322 41), wheel has been in the due course of business, regularly deposited with the City found of the cents of the credit of city. In like manner, twenty-seven thousand four hundred and sixty dollars (27, 460) have been deposited as receipts for 1.625 bernits granted for sewer connections during the same period.

Respectfully submitted.

WILLIAM M. TWEED.

Commissioner of Public Works.

BTATED SESSION, MONDAY, June 19, 1871. 2 o'clock, F. M.
Pressent—Thomas Coman, Esq., Pressent, and Aldermen Charlock, Cuddy, Dimond, Hart, Jerome, Mc-Klever, Mitchell, O'Neill, Plankitt, Reilly, Schlichting, Welch, and Woltman—14.

RESOLUTION REFERED.

By the President—To change the grade of Fifty-fifth treet, from Eleventh avenue to North River.

By Alderman Dimond-To place a free hydrant north ide of Ninety-ninth street, twenty-five feet west of achth avenue.
